Innovations in Relating Real Life Exposures to Chemicals and Chemical Mixtures to Health Outcomes
Friday, February 12th, 2021 1:00pm - 4:00pm

1:00 - 1:05 PM EST  Introduction

1:05 - 1:35 PM EST  Dr. Andreas Kortenkamp, Brunel University - "Male reproductive health - a bad cocktail of endocrine disruptors"

1:35 - 2:05 PM EST  Dr. Jodi Flaws, University of Illinois at Urbana-Champaign - "Applying real life phthalate mixtures from an Illinois pregnancy cohort to toxicological models"

2:05 - 2:35 PM EST  Dr. Laura Vandenberg, University of Massachusetts Amherst - "The mammary gland is a sensitive organ: lessons learned from fracking chemical mixtures"

2:35 - 3:05 PM EST  Dr. Paul Fowler, University of Aberdeen - "Exposure to the complex mixture of environmental chemicals found in human biosolids"

3:05 - 3:35 PM EST  Dr. Jyotsna Jagai, University of Illinois at Chicago - "Cumulative environmental quality and diabetes rates and control"

3:35 - 4:00 PM EST  Panel Discussion featuring Dr. Jennifer McPartland, Environmental Defense Fund, Dr. Natalie Sampson, University of Michigan, and Dr. Zorimar Rivera-Núñez, Rutgers University

This event is sponsored by the Michigan Center on Lifestage Environmental Exposures and Disease (M-LEEaD) University of Michigan School of Public Health. Support for this Center is provided by grant P30ES017885 from the National Institutes of Environmental Health Sciences
