January 22nd, 2018
Chirag Patel, PhD
Department of Biomedical Informatics
Harvard Medical School
12:00- 1:00pm, Room SPH 3755
“Challenges and opportunities in building a search engine to discover new exposures in disease”

January 25th, 2018
Dongeon [Dan] Huh, PhD
Biology Engineering (BE)
University of Pennsylvania
3:00-4:00pm, Room Buhl 5915
“Microengineered physiological bio-mimicry: Human organs-on-a-chips”

February 2nd, 2018
Andrea Baccarelli, MD, PhD
Chair and Leon Hess Professor
Mailman School of Public Health
Columbia University
2:00–3:00pm, Room SPH I 1755
Title: “How are big data changing environmental health?
Examples from exposure science, epidemiology, and environmental epigenetics.”

February 8th, 2018 (Paired Talk)
Heather Patisaul, Ph.D
Department of Biological Sciences
NC State University
9:00-10:00am, SPH 1690 Lane Auditorium
“Sexually dimorphic effects of endocrine disruption on neuroendocrine systems, brain and behavior”

Robert Sargis, M.D
Division of Endocrinology, Diabetes, and Metabolism,
Department of Medicine,
University of Illinois at Chicago
10:00-11:00am, SPH 1690 Lane Auditorium
“Polluted Pathways: Environmental Origins of Metabolic Dysfunction and Diabetes Disparities”

March 20th, 2018
Environmental Health Workshop
Integrated Health Sciences Core (IHSC)
4:00 – 6:00pm, SPH 1690 Lane Auditorium
"Using Systematic Review to Evaluate Population Level-Dose Toxicity from Endocrine Active Chemicals: Research and Policy Implications of the Landmark 2017 National Academies of Science Report"

March 21st, 2018
Jennifer J. Adibi MPH, ScD
Epidemiology and Department of Obstetrics/Gynecology and Reproductive Sciences
University of Pittsburgh
12:00– 1:00pm SPH I 3755
“Placental endocrine disruption: a critical link between maternal exposure and child health”
