M-LEEaD Center

Winter Seminar Series

Chirag Patel, PhD
Department of Biomedical Informatics
Harvard Medical School

Seminar
"Challenges and opportunities in building a search engine to discover new exposures in disease"

12:00 – 1:00 pm
Monday, January 22, 2018

Room 3755 SPH 1

Dr. Chirag Patel's research addresses problems in human health and disease by developing computational and bioinformatics methods to reproducibly and efficiently reason over high-throughput data streams spanning molecules to populations.
