

Environmental Pathways in Carcinogenesis

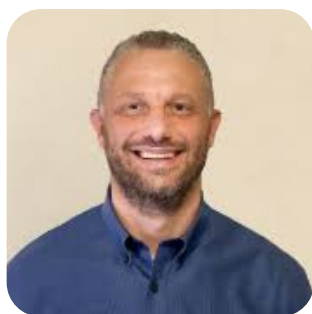

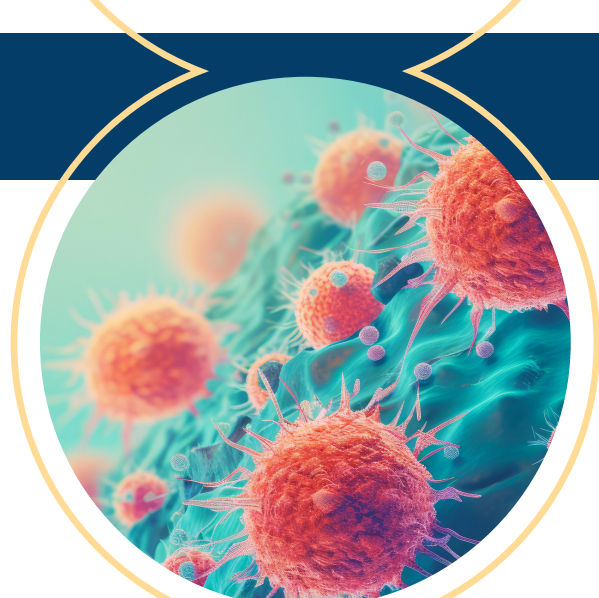

This Year's Focus: Mechanisms, Biomarkers, and Next-Gen Risk Assessment
Virtual Symposium

Monday, Oct 19 2026 9am-3pm EDT
Online Via Zoom - <https://myumi.ch/bDRpW>

Presented by the **SOT Carcinogenesis Specialty Section** and the **Michigan Center on Lifestage Environmental Exposures and Disease (M-LEEaD)**.

Chairs: William Bisson, PhD; Justin Colacino, PhD; Giorgia Del Favero, PhD; Dana Dolinoy, PhD, MSc; and Sue Fenton, PhD, MS

Session 1. Mechanisms: Understanding the role of plasticity and the microenvironment in carcinogenesis using systems toxicology

Session 2. Molecular Epidemiology: Linking exposures to cancer risk and outcomes via molecular biomarkers

Session 3. Emerging New Approach Methodologies: Understanding genotoxic and non-genotoxic carcinogens for next generation risk assessment
